

Year 10 Economics & Business

Semester 2 Course Outline

This semester students will study the ways governments manage economic performance to improve living standards, along with the reasons why economic performance and living standards differ within and between economies. Students examine the consequences of decisions and the responses of business to changing economic conditions, including the way they manage their workforce.

The economics and business content at this year level involves two strands: economics and business knowledge and understanding, and economics and business skills. Students will learn the content through contemporary issues, events and/or case studies.

Learning Outcomes

Students will be assessed on the following Learning Outcomes:

- 10.835 - Explains why and how governments manage economic performance to improve living standards
- 9.826 - Explains the importance of managing financial risks and rewards and analyses the different strategies that may be used
- 10.841 - Gathers and analyses reliable data and information from different sources to identify trends, explain relationships and make predictions
- 8.823 - Develops and presents evidence-based conclusions using appropriate texts, subject-specific language and concepts
- 7.814 - Identifies the effects of decisions and the possible effects of alternative actions

Assessment Tasks

Students will be assessed on their participation and completion of classwork and assessment tasks.

Task	Week Due*
Class tasks and activities (collected in a learning portfolio)	Ongoing
